To whom ever it may concern,

Re: Hill Interior Contracts Ltd

Hill Interior Contracts Ltd has been one of our key contractors for over 7 years.

They have been involved in various capital and minor works projects providing professional Construction Services.

We have found the company to be pro-active, well informed and highly professional. They maintain a high quality of work together with a positive working relationship which has been developed and maintained over the years.

Hill Interior recently completed the refurbishment/ upgrade of City Hospitals new poisons Ward D41. This project required Hill Interior to interoperate the Trusts specification and then design/ build a compliant ward environment. This project also required Hill Interior to upgrade existing aspects of the ward to comply with current Trust/ Clinical guidelines.

We are very happy with the services that the Trust has received from Hill Interior Contracts Ltd and would not hesitate to recommend their services.

Yours sincerely,

Phil Foley

Deputy Head of Estates
